[Spotify App Ad Blocker Mac](#)

The Spotify recommended me to upgrade to the Premium plan to remove Spotify ads, but I don't want to spend monthly money upon this.

"How to block ads on Spotify? I've been using the Spotify free plan for long and have been suffering from the annoying ads ever since.. Is there any way to block Spotify ads for free? What kind of Spotify ads blocker app should I use? Can I block Spotify ads on Android and iPhone?".
